# WELCOME TO THE AMAZING BRAIN CLUB ACTIVITY KIT!

Get ready to explore, create with, and celebrate your amazing brain!

This activity kit is designed to go with *The Amazing Brain Club* and help children discover something very important: every brain is unique, special, and made for a purpose. Whether your child is full of energy, bursting with ideas, or learning how to navigate big feelings, these activities are a reminder that each of our brains are a gift.

Inside, you'll find fun and engaging activities that encourage kids to:

-  Express their creativity
-  Explore how their brain works
-  Celebrate their ideas and strengths
-  Practice kindness and understanding
-  Build confidence in who they are

From drawing and coloring to hands-on activities and affirmation cards, each page is created to help children (ages 4–8) see themselves in a positive and empowering way.

This kit is perfect for use at home, in classrooms, or in church settings, and is designed for both neurodiverse and neurotypical children—because *everyone belongs in the Amazing Brain Club*.

## GROWN-UPS:

Take time to do these activities together. Ask questions, listen closely, and celebrate your child's unique thoughts and ideas. These moments help build confidence, connection, and a strong sense of identity.

Most of all, have fun—and remember:

- ★ Your brain is amazing.
- ★ You are wonderfully made.
- ★ You belong.

Some people's brains line up information like file cabinets, with careful categories for different facts. Here are file cabinets with everything this person has learned about animals and numbers and outer space.

God wired each of our brains with a purpose. He made us all unique, to reflect Him in a special way as a member of the Amazing Brain Club.
